

Product Introduction

X-431 ADAS Pro Calibration Equipment

LAUNCH Europe

Introduction

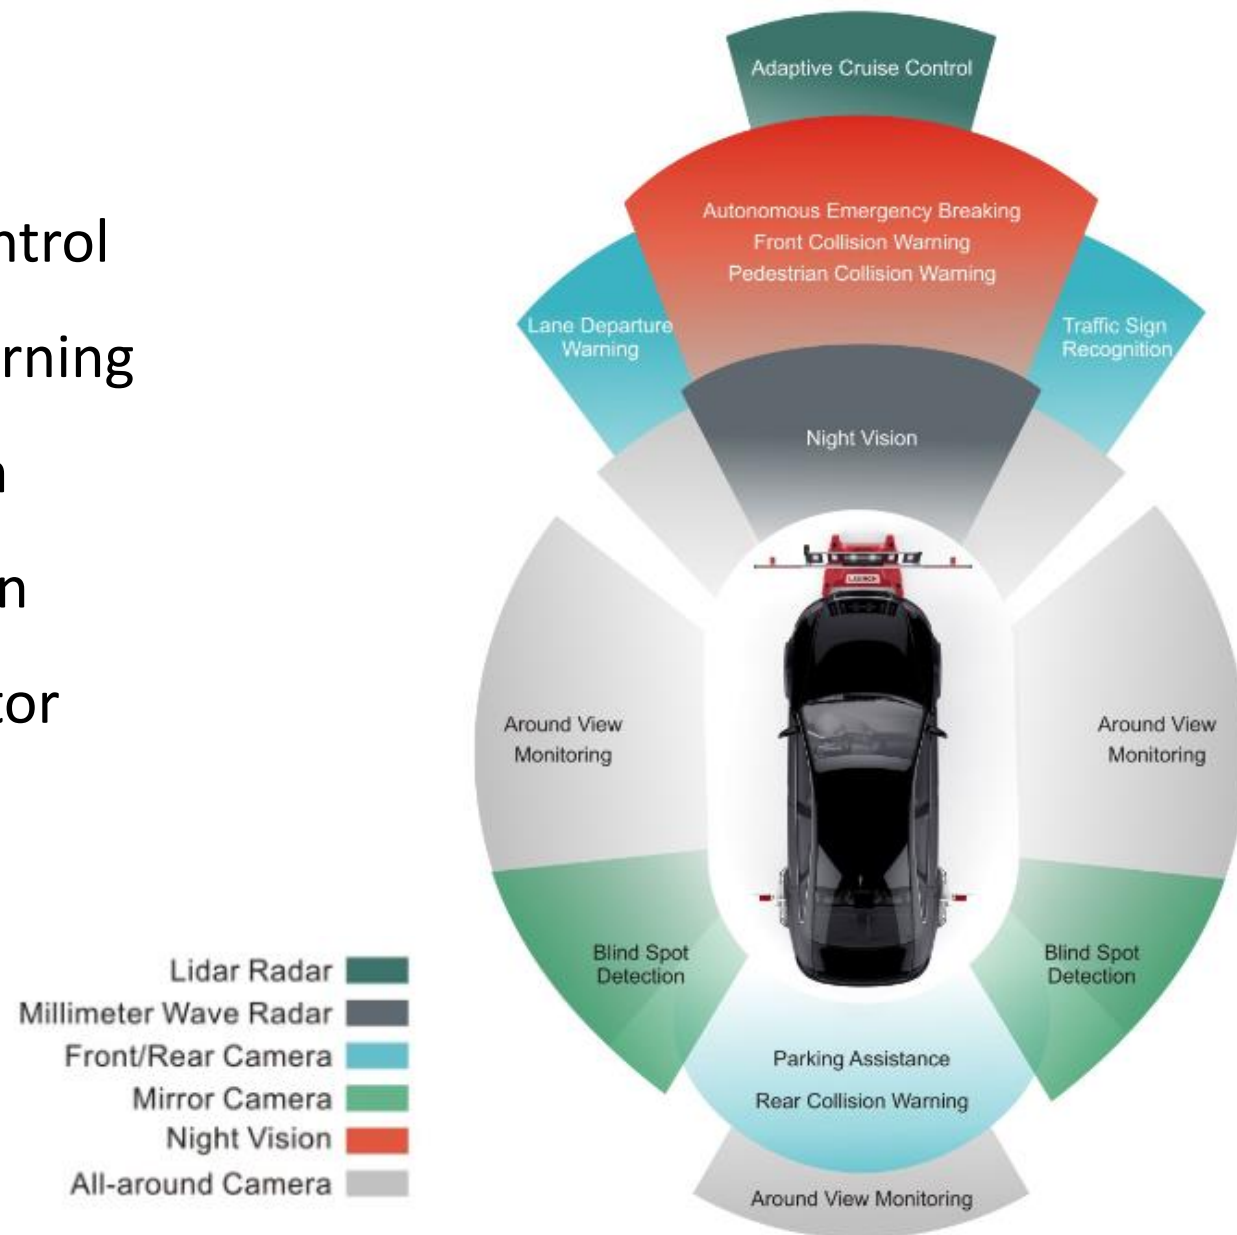

X-431 ADAS Pro is the new generation automotive ADAS camera and radar calibration equipment developed by Launch. With the new user-friendly design, lightweight construction and electric control system, you can do the job of calibration of camera- and radar-based ADAS systems more simply. The X-431 ADAS Pro allows the operator to locate the camera calibration panels and the radar reflector panel in the correct position to ensure the system calibration to be carried out quickly and accurately.

X-431 ADAS Pro is suitable to the auto body shop, glass service shop, and professional workshop, to provide the professional recalibration for the ADAS camera and radar, when the sensors have been removed, replaced or repaired.

LAUNCH Europe
