

LAUNCH

Europe GmbH

CRE EURO 1
CRE EURO 3

Introduction

- Creader Professional Elite EURO 1 and EURO 3 are two new products of LAUNCH Europe DIY series. They have 1 and 3 self-selected software, customers can select the software according to their own needs when using them for the first time.
- The self-selected software includes the vehicle software that supports the all-systems diagnosis function, and the service software that can support a variety of vehicle brands.
- The integrated online shop enables customers to purchase more software online flexibly according to their needs.
- Thanks to the WiFi function, customers can connect to WiFi to update the software with just one click.
